Terms and Conditions

• We have an introducing broker/carrying broker agreement with Fidelity Clearing Canada ULC ("FCC"). Under such agreement, FCC may provide us with custody, trading, clearing and settlement services. As the Introducing Broker, we are responsible for determining and supervising the suitability of trading activity, and the opening and initial approval of accounts.

• Please review your Investment Portfolio Statement. Any errors should be reported to our Compliance Department in writing within 30 days. For additional information, please speak to your Investment Advisor.

• We are required to disclose to Canada Revenue Agency all transactions involving the disposition of securities, even if no tax forms are produced for such dispositions. Please keep your statement as a reference for tax purposes.

• Customers' accounts are protected by the Canadian Investor Protection Fund within specified limits. A brochure describing the nature and limits of coverage is available upon request or at www.cipf.ca.

• Copies of our financial position as of our most recent financial year-end and a list of our directors and senior officers are available upon written request.

• Any free credit balances represent funds payable on demand which, although properly recorded on our books, are not segregated and may be used in the conduct of our business. Cash balances in registered accounts are held in trust by the plan trustee TSX Trust Company of Canada.

• The subsection on Asset Allocation indicates how the consolidated financial assets you hold with us are distributed across each of the basic asset classes. Any securities sold short or debit cash positions are excluded from this asset mix calculation. The amounts shown in this section are given in Canadian dollars.

• Interest rates on debit and credit balances are available upon request, please contact your Investment Advisor.

• Using borrowed money to finance the purchase of securities involves greater risk than using cash resources only. If you borrow money to purchase securities, your responsibility to repay the loan and pay interest as required by its terms remains the same even if the value of the securities purchased declines.

• The "Book Cost" column means (i) In the case of a long security position, the total amount paid for the security, including any transaction charges related to the purchase, adjusted for reinvested distributions , returns of capital and corporate actions; or (ii) In the case of a short security position, the total amount received for the security, net of any transaction charges related to the sale, adjusted for any distributions (other than dividends), returns of capital and corporate actions.

• We do not guarantee the accuracy of the book costs and market values since they may have been acquired from an external source. You accept responsibility for the accuracy of these values and their use for tax reporting purposes.

• The Activity Details subsection presents, in chronological order, all transactions made during the period.

• All dates of transactions are settlement dates.

• Purchases and/or dispositions of securities resulting from transactions settled after month-end will be reflected in the following month's Portfolio Statement.
